Hi all -

I did a quick review of those chemicals that I am familiar with, and made comments in the attached. Many are formatting for consistency, but some key issues that need review:

Deliberative Process / Ex. 5

Thanks - sorry I don't have more time to address. I am out of the office and will be off line for most of the rest of the day.

Maureen

Subject: More hearing prep materials - please review

Hi Folks - I'm still working on hearing prep materials. Attached is a table that Joanne Rodman requested which lists all of the chemicals on the IRIS agenda and the step of the IRIS process they are in. High profile chemicals are highlighted with additional details at the top. Please take a look and let me know if anything is incorrect.

Please also see the attached chemical-specific Q&As. I've flagged a few places where I think our answers should be enhanced or updated (formaldehyde, chromium 6). Please take a look at chemicals that are in your division and send me any updates or edits that are needed.

We have our first prep session with Paul A. tomorrow afternoon. It would be ideal if you could send me updates by noon tomorrow.

Thanks,
Kacee
